Jim, thanks for the article. It's the first I heard about this stuff causing problems. I'll have to check the past few Micrograms to see if there anything there. Im surprised nobody in Public Health has inquired about this. I m very surprised to see Dr DeMaria commenting on it, yet nobody has questioned us about whether we have seen it or not. Take care Chuck S

Hi Chuck,
Saw this article in the Globe, Thought you might be interested. We have seen this in approximately 30% of our Cokes.

Jim
